

About Us:

At Cashfree Payments, we're not just shaping the future of payments - we're moving fast to help scale businesses of all sizes at different stages of their growth journeys.

Founded in 2015, we process transactions worth \$80B annually and are trusted by more than 800,000 businesses. Authorised by the Reserve Bank of India, we are one of the first entities to receive critical licences like PA-PG, PA-CB and PPI in the sector. We enable seamless collections, payouts, identity verification and fraud detection.

We are backed by Silicon Valley investor Y Combinator, Apis Partners, KRAFTON Inc, State Bank of India (SBI) and were incubated by PayPal.
